COMPANY INTRODUCTION

HISTORY AND DEVELOPMENT

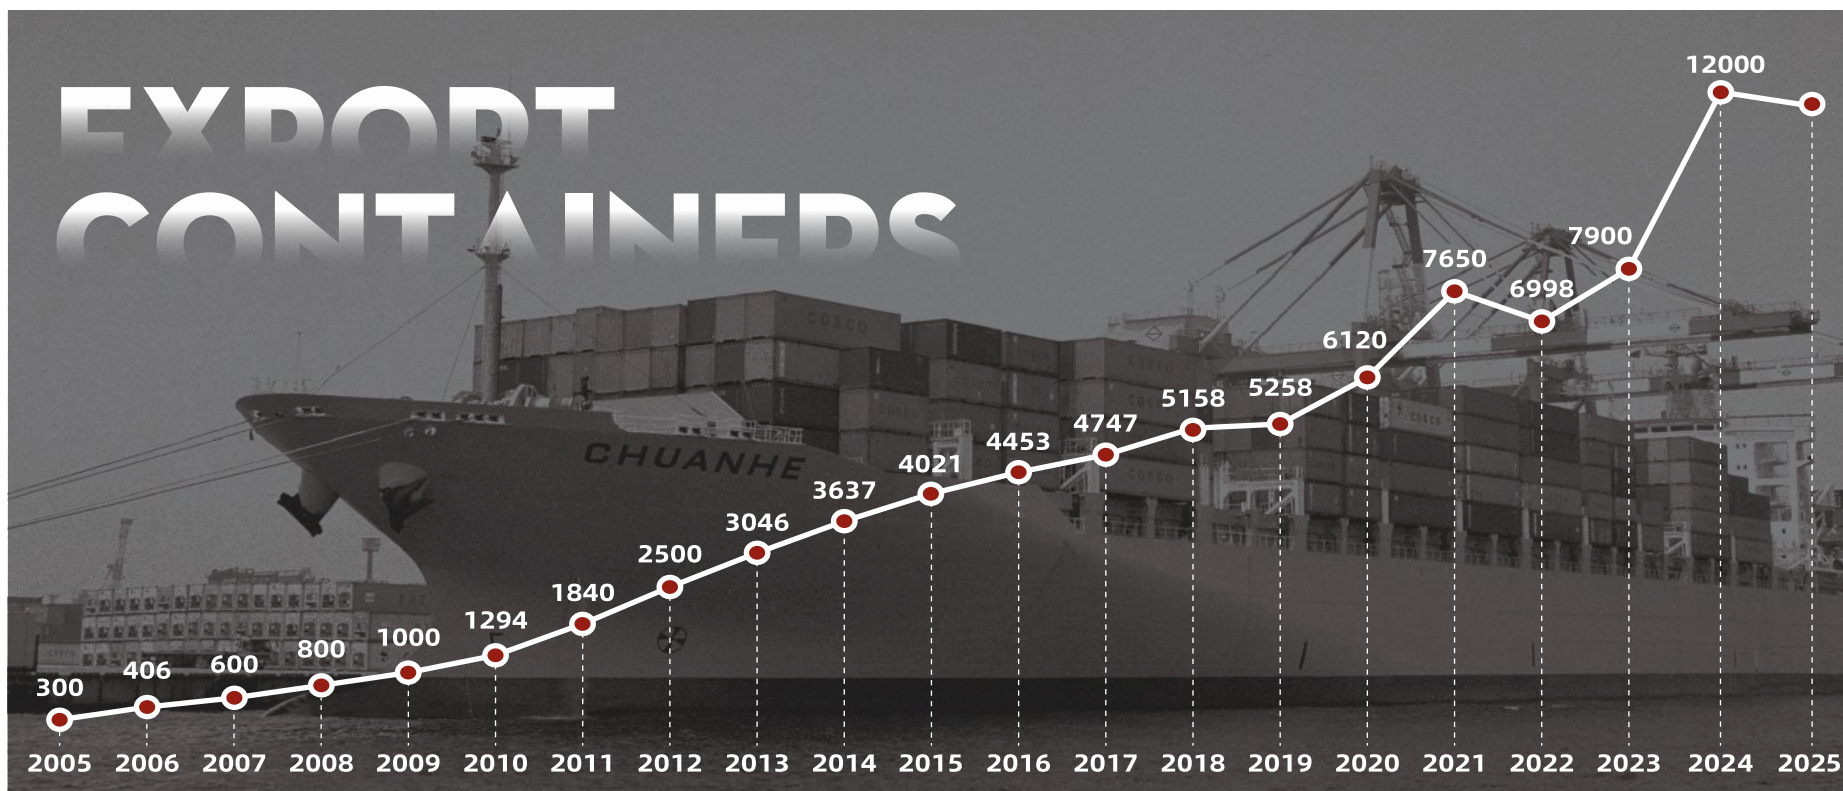

MARKETING EXPERIENCE

GLOBALIZATION

We are not limited to develop our business in European countries and we have a steady expansion in many other countries and regions, such as the Middle East, North America, South America, etc. We are aiming to sell our fasteners all over the world. We are small, but we are everywhere.

CHINFAST INTRODUCTION

Chinfast uses 10B21, C1022, SS304, SS316, SS401 and Bi-Metal materials to manufacture Advanced Multi-Purpose Wood screws, Timber Fixing Screws, and Decking Screws Self-drilling Screws, supplying products to global industries from the headquarters in Haiyan, China. Currently it produces 1,200 tons per month which derive from a 23,000 square meters' plant with 110 employees. Additionally, it features a professional team working on small packages for Do-It-Yourself hardware stores, together with a well-equipped lab for QC. These strengths contribute to a one-stop service spanning from production to DIY product packaging such as tubs, kits, pouches, carded, box packing and the like. It is highly trusted and recognized by clients for the stable supply and high quality.
